

BHUSHAN NARWARE

Cybersecurity Researcher & Certified Ethical Hacker

✉ bhushannarware0911@gmail.com ☎ 6267201050 📍 Bhopal, Madhya Pradesh 📅 09/11/2001

🐙 github.com/Bhushan-narware 🌐 www.linkedin.com/in/Bhushan_narware

PROFILE

Proactive and adaptable Certified Ethical Hacker combining strong analytical problem-solving with exceptional interpersonal skills. Proven ability to translate complex security vulnerabilities into actionable business insights and seamlessly manage technical operations. Eager to leverage cross-functional collaboration and leadership to bridge the gap between technical penetration testing and overarching organizational goals.

PROFESSIONAL EXPERIENCE

Cybrom Technology, Cybersecurity (6 month) 10/2025 – 04/2026 | Bhopal
Certified Ethical Hacker (CEH) and Computer Science graduate with 6 months of hands-on experience as a Cybersecurity Intern at Cybrom Technology. Proven expertise in network reconnaissance, web application security testing, and vulnerability assessment utilizing Kali Linux frameworks. Driven to secure enterprise infrastructure by combining defensive strategies with an offensive mindset.

Naman Digital, Cybersecurity (2 month) 06/2025 – 08/2025 | remote
Completed a two-month professional internship in Cybersecurity, gaining practical exposure to core security concepts within an MSME-recognized environment. Demonstrated a strong commitment to industry standards and successfully identified network vulnerabilities to improve system defense mechanisms. Applied core security frameworks to assess risks and contributed to securing digital infrastructure against potential threats.

Codsoft, Python Programming (1 month) 09/2025 – 09/2025 | remote
Engineered hands-on software development projects using Python to automate complex tasks and streamline workflows. Designed, debugged, and executed clean, functional code to ensure optimal project performance. Utilized standard programming practices and software frameworks to manage project execution smoothly from start to finish

SKILLS

Programming: Python (Security Automation), HTML, CSS, JavaScript, PHP, MySQL. |

Networking: CCNA, Network Security, Protocols |

Methodologies: Penetration Testing, Vulnerability Assessment, OSINT, Red Teaming Basics. |

Security Tools: Nmap, Burp Suite, Metasploit, Wireshark, Kali Linux.

PROJECTS

DarknetEye tool

Developed a specialized security automation tool designed for OSINT and footprinting

Tech Stack: Python, Bash, Network Protocols.

passGenx 📄 , <https://github.com/Bhushan-narware/passGenx.git>

Built a secure, customizable password generation tool to enhance credential security management.

Tech Stack: Python.

iptracker  , <https://github.com/Bhushan-narware/iptracker.git>

Engineered an IP tracking tool designed for reconnaissance and geolocating targets during penetration testing phases.

Tech stack: Python.

Local AI Environment

Successfully configured and hosted the Qwen3 (8B) model locally using llama.cpp entirely from a portable 8GB pen drive, showcasing optimization of large language models on minimal hardware footprints for enhanced data privacy

Tech stack: Local LLM Server

EDUCATION

Bansal Institute of Research & Technology, Bhopal (M.P.) 2026 | (6.4 CGPA)
Rajiv Gandhi Proudhyogiki Vishwavidyalaya (R.G.P.V.)
Bachelor of Technology in Computer Science and Engineering

Govt. Polytechnic College Betul (M.P.) 2020 – 2023 | (6.21 CGPA)
Rajiv Gandhi Proudhyogiki Vishwavidyalaya (R.G.P.V.)
Computer Science and engineering Diploma

Vidyasagar H S School Shobhapur colony, Betul (M.P.) 2017 – 2018 | 65%
Madhya Pradesh Board of Secondary Education

CERTIFICATES

Google Cybersecurity Professional Certificate(Coursera) |
Windows API for Red Team Introduction (Red Team Leaders)  |
Ethical Hacking & Penetration Testing (Udemy & CodeAlpha) |
Project Management (Tata Consultancy Services)
